

PMJ31 Pneumatic Eyelet Machine

This compact high performance machine takes the strain out of inserting our plastic eyelets.

Aimed squarely at the Banner Industry. This cost effective machine helps take the strain out of what can be a tedious task. Totally air operated. Will in one single action punch out a hole in your material whilst simultaneously setting the eyelet or grommet.

- Does not require any electrical connection
- Extremely simple to operate.
- Sets our 12mm PolyGrommet eyelets
- Ideal for vinyl banners and other plastic material.
- Back stop for accurate placement of work.
- Finger guard protection mechanism prevents operation when dies are obstructed.
- Small enough to be operated from behind
- We can supply an appropriate compressor if required.
- Available on convenient wheeled trolley or bench mounted.

• **PolyGrommets**
